Dear Mr. Weisberg, Oct. 6, 1968

I am a senior at Germantown Friends School in Philadelphia, Pa. I am engaged in doing research for a history honors project on the Warren Commission. My premise is to prove that had he lived Lee Harvey Oswald could not have been convicted of the assasination of President Kennedy.

I have read your book and found it very interesting and informative. I first became aware of your fine work on Jack McKinney's radio show on WCAU Philadelphia on which you made a number of fine appearances.

I was wondering if there was any help you could give me which would aid me in this research. Anything will be greatly appreciated. Congratulations on your fine work on this topic and on your courage and persistance in seeing that the American people are made aware of the inconsistancies in the Report.

Thank you for your help.

Yours,

Edward Zubrow
